SINGER® MODEL 2818

SINGER® MODEL 2818

Taking best care of your everyday sewing needs!

Time-saving features and ease-of-use have become more and more important for beginners and professional sewers alike when choosing the right sewing machine to cope with their personal sewing requirements.

So if you're looking for a reliable, robust sewing machine with a larger variety of stitch programs, model 2818 is the answer. It's easy to use and provides you with an array of features and stitch programs, including stretch stitches and a 4-step buttonhole, that make sewing more comfortable. For professional looking results!

> Comfortable Sewing Through Modern Technology:

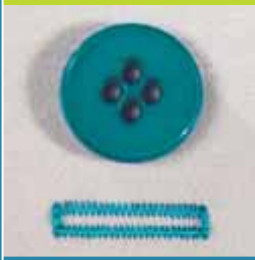

Top drop-in bobbin system

Fast and easy bobbin insertion from the top! Makes bobbin changing and cleaning exceptionally simple.

Changing presser feet in seconds

Thanks to snap-on/off convenience it's fast and easy to change presser feet.

4-Step buttonhole

Fast buttonholes can be sewn in just a few simple steps, with professional results on garments, accessories, etc.

Easy pattern selection with dial

A handy dial lets you select the required pattern in seconds.

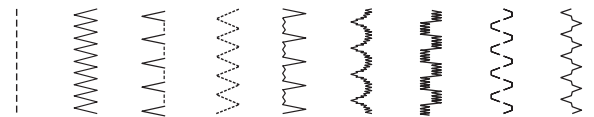

More highlights for easy sewing:

- > Easy flat bed/free arm conversion
- > 3 Needle positions
- > Electronic foot control
- > Stitch length up to 5 mm
- > Adjustable stitch width 0 – 6 mm
- > Accessory storage in extension table
- > Reverse sewing

> All stitch programs at a glance:

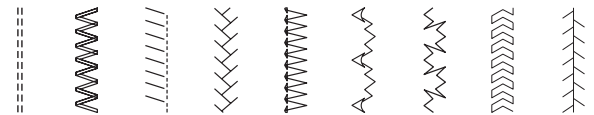

Utility stitches:

Choose from 9 most common stitch programs for seaming, overedging, blindhems, etc.

Stretch stitches:

A variety of 9 stretch stitches will easily cope with today's elastic materials.

4-Step buttonhole:

The professional buttonhole in just a few simple steps.
